(54) Title: METHOD AND ARRANGEMENT IN THE ON-LINE FINISHING OF THE PAPER MACHINE

WO 2004/042144 A1

(57) **Abstract:** The invention relates to a method in the on-line finishing of the paper machine comprising the successive finishing stages of at least precalendering (12) and coating (13). In the method, a tail is formed from the paper web and this tail is taken through the finishing stages (12, 13). After this the paper web is spread to the full width. Prior to starting the tail threading procedure of the following finishing stage (12, 13) this finishing stage (12, 13) is set to the production settings while the paper web is spread in its full width. The invention also relates to an arrangement in the on-line finishing of the paper machine.
